# DIPLOMA IN SOUND & MUSIC

12 MONTHS ( 1 YEAR COURSE )

This comprehensive one-year diploma program in Sound Engineering & Music Production is designed to cultivate musically creative and technically proficient engineers for the modern recording industry through hands-on, practical training. The curriculum thoroughly covers all short-term program modules, introducing students to a variety of audio production courses, including traditional studio work, live sound, post-production, sound design, composing, and programming for songs. Advanced classes focus on honing creative and technical skills through advanced recording, editing, mixing, mastering techniques, song arrangement, chord structure, and harmony. Students participate in real-world studio projects and are provided with internships to apply their knowledge. The program culminates in a professional portfolio that serves as an audio resume and demo reel for potential employers. The institute prides itself on offering the finest sound engineering courses in **Chennai**, distinguished by its infrastructure and practical orientation.

# CERTIFICATE IN LIVE SOUND ENGINEERING

## 3 MONTHS COURSE

Our Live Sound Courses cover all the necessary modules required to train a live sound engineer proficient in the creation, operation, and planning of modern-day musical, theatrical, event, and corporate productions. Throughout the program, students are involved with hands-on exercises and real-world shows and events that enable them to apply their knowledge and refine their skills. We are known as an institute that provides high-level internships and training for our live sound courses in Chennai. You'll be using professional-grade equipment from respected manufacturers such as **Yamaha, Allen & Heath, Midas, Sound craft**, etc., to learn the art of live sound engineering.

### TRAINING MODULE

**LIVE SOUND PRINCIPLES**  
FUNDAMENTALS OF SOUND

**PRO AUDIO MIXERS**  
ANALOG & DIGITAL MIXERS

**TECH RIDERS & STAGE CRAFT**  
SHOW SETUP & CALIBRATION

**PRO AUDIO GEARS**  
MICS, SPEAKERS & AMPS

**MONITORING & MIXING**  
MOH & FOH MIXING TECHNIQUES

### DETAILED TOPICS

Training on 3 Analog Mixers & 3 Digital Mixers

**Allen Heath, Midas, Digico, Yamaha, Behringer, Studio Live**

Live Sound Fundamentals | Live Sound Principles |  
Audio Cables | Basic electronics | Loudness Levels  
(dB's) | Live Sound Systems & Stagecraft |  
Analog mixers | Digital Mixers | Analog & Digital  
Mixers | Patching Gears | Stage Rack | Stage Craft |  
Stage Plot | Tech Riders | Live Sound Production  
Skills | Loudspeaker History & Design | Modern  
Loudspeaker Technology | Crossovers | Line arrays  
| Power Amps | Speakers | Subwoofer & Tops Arrangements  
| In Ear Monitoring ( IEM's ) - Advanced Monitoring Applications | Wireless Systems | RF Connections |  
System Design | Audio Networking | FOH Mixes | MOH Mixes | Audio Processors | Live Mixing Techniques  
| Multi track Recording | Broadcasting Mixes |

# CERTIFICATE IN STUDIO ENGINEERING

## 3 MONTHS COURSE

Our Studio Engineering program is a **hands-on practical training program** which takes place in a real studio working environment. The studio engineering course is structured in a way that all facets of studio working methodologies are covered. The outcome of this course helps you to do all sorts of studio production work, starting from creating your first session and taking you all the way to the high ends of Mixing and Mastering.

### TRAINING MODULE

 **LIVE SOUND PRINCIPLES**  
FUNDAMENTALS OF SOUND

 **RECORDING THEORY**  
MICS, SOUNDCARDS, SPEAKERS

 **MIXING & MASTERING**  
PLUGINS & PROCESSORS

 **RECORDING TECHNIQUES**  
TRACKING LIVE INSTRUMENTS

 **AVID – PROTOOLS DAW**  
AVID CERTIFICATION SYLLABUS

Basics of Sound | Audio Electronics | Decibels - The Audio Math | Studio Acoustics | Recording Equipment's | Studio Microphones | Stereo Miking Techniques | Studio Monitors | Cables & Routings | Signal Flow | Post Production Plugins | Eq's - Compressors - Reverbs | Recording techniques | Studio Calibrations | Hardware & Software Configurations | Mixing & Mastering.

**Intro to Mixing** | Critical Listening | Balancing tracks | Equalization | Dynamic Processing's | Compressors | Limiters - Expanders | Parallel Compressions | Time Based Effects | Modulation Effects | Tape Saturation | Stereo Imaging | Tips and Tricks for mixing various instruments & Vocals | Side Chaining | Pitch Corrections | Mixing Electronic Music | Processing a Sub mix | Printing a mix | and more..

**Intro to Mastering** | Mastering Eq's & | Multiband Compressors | Brick Wall Limiter | Exciter | Imaging | Dithering | Audio File Format Conversions | Loudness Metering | Izotope | Exporting your final track | Album Mastering |

1 review

★★★★★ a month ago

Highly recommended, best faculty, the classes are practical and industry-focused and the environment really pushes you to learn and create. After joining here I learnt pretty much everything about Sound and Music, things I never knew before. This institute m'ade a perfect path for me to kickstart my career.

**Balaji Jagan**

4 review

★★★★★ 2 month ago

I'm currently studying at Sound Point Pro, and it's been a great learning experience. The institute provides a very practical and creative environment to understand every aspect of sound and music production. My mentor, David Joel, is highly knowledgeable and always ensures we grasp both the technical and artistic sides of audio. His guidance and teaching style have helped me improve a lot. I'd definitely recommend Sound Point Pro to anyone who wants to learn sound professionally.

★★★★★ 2 month ago

I've completed one year of training at Soundpoint Pro, and it has been an excellent experience. The institute provides the best guidance in Sound Engineering and Live Sound. The trainers are very experienced and teach with real studio and stage examples, which helped me gain strong practical knowledge. The environment is friendly, creative, and professional. I'm really happy that I also got placement support from the institute. I truly recommend Soundpoint Pro to anyone who wants to build a successful career in sound and music production.

★★★★★ 3 month ago

I'm Kamalraj from Namakkal , Student of Sound Point Pro - batch 25. I have completed Live Sound Engineering course in Sound Point Pro. It was well experience and valuable.They teach from basics like soldering, Analog mixers and Digital mixers. Different types of mixer are taught, I have learnt from that practically . The paid internship are provided in live shows. In additionally Lighting workshop was conducted it was very useful to learn about lighting also, I have gained knowledge. I am happy with Sound Point Pro.
